Statement by Frederick Bell on the University Student Senate's approval of the Executive Order Revocation resolution

BATON ROUGE, La.- Frederick Bell commends the University Student Senate for its 96 percent approval of SGR No. 6, which "urged the revocation of Executive Order 13796" by President Donald Trump.

Frederick released the following statement on Facebook Friday regarding the executive action and the Student Senate's response to it:

"I am proud of the LSU Student Senate for standing up for our international students. They make our university and country stronger."
